12 nouvelles *impressions* en quatre cahiers

**Book II** dedicated to Blanche Selva

• RONDEÑA	1
• ALMERÍA	19
• TRIANA	39

A long overdue revision of my earlier edition from 2018 has provided a splendid opportunity to rediscover this extraordinary creation from Albeniz' last years. As is so often the case, the real joy in studying these masterworks is the deep communication of thought that passes directly from composer to interpreter, and there are many, many such magical moments particularly during the intimate *cante jondo* sections; the presence of an audience becomes quite superfluous.

There is general agreement among pianists and musicians that *Iberia*, Albéniz' 'swan song', is arguably his greatest work and possibly the most significant and challenging work for piano by a Spanish composer. As Donal Henahan once wrote "There is really nothing in Isaac Albeniz's *Iberia* that a good three-handed pianist could not master, given unlimited years of practice and permission to play at half tempo".

It is worth remembering that after many decades of complacency and foreign domination, Spanish music was only beginning to experience a slow reawakening during Albéniz's life. *Iberia* was seen to be a daring and revolutionary composition.

Hitherto he had not created any work that could be considered outstanding.\* These 'impressions' of Spain

were created at the age of 45 and only a few years before his death in 1909. With *Iberia*, Albéniz dragged Spanish music into the twentieth-century.

We find four books of very diverse music reflecting different scenes and moods from Spain and as there is no essential thread (hence the caption *12 nouvelles Impressions*), it is possible to perform them in any order and in any number.

When I first heard Alicia De Larrocha perform them I was astounded and impressed by the language and technical mastery of both composer and interpreter. And when I was finally able to attempt the work, I noticed that the text (Éditions *Salabert*) was often difficult to study; there were inaccuracies, many accidentals and too many instructions, coupled with sub-standard engraving. So I decided to edit and publish the music myself.

With the exception of differing major and minor modes in *Evocación* and *El Corpus en Sevilla*, Albéniz never changes key signatures in *Iberia*, preferring the heavy use of accidentals. Was this through negligence or by design? If the former, I humbly offer this edition which inserts many adjustments, rendering, I believe, the text easier to read and comprehend.

taranta rhythms carry the performer with them and charm and bewitch the listener. In the words of the dedicatee, *Almeria* "never lets go of the pianist".

— *Jean-François Heisser*

As an interpreter-performer I often have to ask myself why a composer has chosen a particular time or key signature and sometimes the answer is not at all obvious. Now that we have the tools with which to 're-arrange' the music otherwise, my work as an editor becomes much more interesting. When these pieces were first written I like to think that the composer did not necessarily consider all the options, (at the time they had so much else to think about) and I doubt whether a colleague, editor or proofreader would have had the temerity to question a composer's wishes. However, in retrospect I like to think that these now aged composers are approvingly viewing my modifications from above and giving the nod to my humble efforts. A vocabulary may be found on page 43.

*Sostenuto* pedal suggestions are editorial; with the left foot it is possible to combine with the soft pedal, and impressionist orchestral sounds can be achieved by judicious and simultaneous use of the damper pedal. This invention was first shown in Paris at the Industrial Exposition of 1844 but not immediately taken up by piano builders. In 1874, it was perfected and patented by Steinway, soon to be fitted on all their grands and revolutionary uprights. One obvious commercial reason for not including the *sostenuto* pedal in musical scores must have been the thought of excluding buyers whose pianos didn't have it. Debussy and Ravel certainly played such Steinways in the Paris salons. Apparently, in 1900 the composer René de Castéra bought a 3-pedal Steinway on the advice of Albeniz. One could say that it took over 100 years for it to become widespread.

— *Ray Alston September 2024*

\* Albeniz commenting on his own music written before *Iberia*: "Here are among them a few things that are not completely worthless. The music is a bit infantile, plain, spirited; but in the end, the people, our Spanish people, are something of all that. I believe that the people are right when they continue to be moved by *Córdoba*, *Mallorca*, by the *copla* of the *Sevillanas*, by the *Serenata*, and *Granada*. In all of them I now note that there is less musical science, less of the grand idea, but more colour, sunlight, flavour of olives. That music of youth, with its little sins and absurdities that almost point out the sentimental affectation... appears to me like the carvings in the Alhambra, those peculiar arabesques that say nothing with their turns and shapes, but which are like the air, like the sun, like the blackbirds or like the nightingales of its gardens. They are more valuable than all else of Moorish Spain, which though we may not like it, is the true Spain".

\*\* one closes one's eyes and is bedazzled by the sheer wealth of invention in this music" — Debussy writing as *Monsieur Croche* in 1913

\*\*\* After the *Reconquista* Flamenco was born of Moorish, Gypsy and Jewish traditions and culture, minority ethnic groups who were persecuted by the Inquisition. Their common suffering found outlet in this highly expressive and passionate music. Eleven of the twelve pieces portray places and scenes in southern Spain using the typical Phrygian and other modes, pedal points, and impressions of guitar, clapping, stamping and castanets.

# R O N D E Ñ A

**A**lthough a difficult piece to master, *Rondeña* is considered one of the less challenging of the collection. Those of you who know and love Andalusia, will immediately respond to this second volume with three pieces expressing heat, passion and flamenco from this corner of Spain.

Dating from 1907 the music draws inspiration from a *fandango* with riffs and motifs imitating guitars and castanets. The title refers to the picturesque town of Ronda but might also be about a marriage celebration with dancers clapping as illustrated by the two crisp chords in bar 2. *America* from Bernstein's *West Side Story*

features *petenera* — a '*palo*', a slower and melancholic character folk dance, with metric swapping between 6/8 and 3/4.

With stunning harmonic invention and a heartfelt melody, the central *copla*, in *cante jondo*\*, is steamy, languid and melancholic. I love this ecstatic episode, and the way the composer develops and combines thematic and rhythmic ideas, disappearing finally with a distinctive nocturnal final section. The climax at page 14 reminds me of the earlier *El Puerto* from volume one. The witty coda is most unexpected.

\* Deeply moving vocal flamenco

- Duration 7'25
- There are many, many pedal signs, and an observation by Debussy can provide a pertinent object lesson: "Pedalling cannot be written down. It varies from one instrument to another, from one room, or one hall, to another." Thus I have only included those which are perhaps not evident. In this piece, there are quite a number of opportunities to use the *sostenuto* pedal\* combined with the sustaining pedal.
- With the exception of differing major and minor modes in *Evocación* and *El Corpus en Sevilla*, Albéniz never changes key signatures in *Iberia*. preferring the heavy use of accidentals.

- in order to simplify the text

has been replaced throughout with

- the time-signatures: every bar contains 6 quavers, and the metre is shown with careful beaming
- there has been some pruning of Albeniz's multiple instructions in Italian and French.
- it is suggested that A section grace notes should be played **before** the beat but **on** the beat for the lyrical sections.
- **73** section adaptations
- **77** an early edition gives C# — a certain error
- **78 & 86** lower octave suggested omission
- **175 & 177** an alternative RH accompaniment is offered for these 2 bars
- **183 & 187** an alternative final beat accompaniment is offered here

First system of the musical score. It consists of two staves. The top staff is in treble clef with a key signature of two sharps (F# and C#) and a 6/8 time signature. It contains a melodic line with eighth and sixteenth notes, accented with a 'v' and a hairpin. The bottom staff is in bass clef with the same key signature and time signature. It contains a bass line with eighth notes, some beamed together, and a 'p.' (piano) marking. The system is marked with a 'mf' (mezzo-forte) dynamic.

Second system of the musical score. It continues the two-staff format. The top staff has a '4' marking above a group of notes. The bottom staff continues the bass line with eighth notes and beaming. The system is marked with a 'p.' (piano) dynamic.

Third system of the musical score. The top staff has a '5' marking above a group of notes. The bottom staff continues the bass line. The system is marked with a 'più f' (più forte) dynamic.

Fourth system of the musical score. The top staff has a '13' marking above a group of notes. The bottom staff continues the bass line. The system is marked with a 'sfz' (sforzando) dynamic and includes the word 'vibrant' at the bottom left.

This system contains measures 181 through 184. The music is in a key with one flat (B-flat major or D minor). The right hand features a series of chords and moving lines, with a fermata over the final measure. The left hand provides a steady accompaniment with eighth and sixteenth notes. Dynamic markings include *p* and *e sonoro*. There are also performance instructions like *2*, *4*, and *5* above certain notes, and a *\** marking above a chord in measure 183.

185 *mf*

This system contains measures 185 through 188. The key signature changes to two sharps (D major or F# minor). The right hand continues with complex chordal textures and melodic fragments. The left hand maintains its accompaniment. Dynamic marking is *mf*. Performance instructions *2*, *4*, and *5* are present above notes in measures 185, 186, and 188 respectively. A *\** marking is also present above a chord in measure 187.

189 *ff* *très en dehors*

This system contains measures 189 through 192. The key signature changes to three sharps (F# major or C# minor). The music is marked *ff* and *très en dehors*. The right hand features rapid, repeated chordal patterns. The left hand has a more active role with eighth and sixteenth notes. Performance instructions *3*, *5*, and *1* are placed above notes in measures 189, 190, and 191 respectively.

# ALMERÍA

An atmospheric and exotic introduction to the pianistic world of Albeniz reflecting this southern region of Spain. Tied to a closely related key, *Almería* begins much like the preceding *Rondeña*, but the dance has now become a languid dream during a siesta in the torrid Andalusian heat, reinforced by mesmerising repetition of the opening riff. An extended and effective pedal point leads to a typical central impression of *cante jondo*\* — ardent music from the heart. Less technically challenging than *Triana* but very rewarding to study, I particularly love the animated section, suggestive of a passionate *jota*.

With great coherence and despite the apparent differences, the composer places *Almería* directly

after *Rondeña*, imbued with the same stylistic and ideological framework. Moreover, the latter can be defined as the interplay between calm and lively rhythm, and as Debussy suggests elsewhere, Albeniz magnificently prolongs this evocative serenade.

— Enrique Franco

But the most striking part of this triptych is without any doubt *Almería*, a great nocturne whose swaying taranta rhythms carry the performer with them and charm and bewitch the listener. In the words of the dedicatee, *Almería* 'never lets go of the pianist'.

— Jean-François Heisser

allegretto moderato ♩. = 72

The musical score for 'Almería' is written for piano and celeste. It begins with a key signature of one sharp (F#) and a 6/8 time signature. The tempo is marked 'allegretto moderato' with a quarter note equal to 72 beats per minute. The piano part is marked 'play silently' and 'Sost Ped.' with an asterisk, indicating sustained pedal. The celeste part is marked 'dolce' and 'avec la petite pédale'. The score is divided into four systems, each containing two staves (piano and celeste). The first system starts with a 6/8 time signature and a key signature of one sharp. The second system starts with a 6/8 time signature and a key signature of one sharp. The third system starts with a 6/8 time signature and a key signature of one sharp. The fourth system starts with a 6/8 time signature and a key signature of one sharp. The score includes various musical notations such as notes, rests, beams, and slurs, as well as performance instructions like 'dolce', 'sempre dolce', and 'avec la petite pédale'.

# TRIANA

**T**riana is on the west bank of the Guadalquivir River, well-known for its Romany community. Probably the most popular piece of the collection, the music evokes a flamenco *fiesta*, with strumming guitars, clicking castanets, hand clapping, and stamping feet. We hear a *sevillanas* and a *pasodoble torero*, trumpeted by the band at bullfights.

This passionate music is certainly very difficult to read and play, and one is very tempted to leave out quite a few notes, or to at least rearrange them to suit one's own hand and technique; indeed, 10 fingers often seem inadequate to manage all the crossing of hands, leaps and large chords.

is amusing, sparkling and has a hidden accompaniment of castanets.

Joaquín Malats gave a preview performance in Madrid, where its success required him to play it again as an encore, and the same happened in Barcelona shortly afterwards. "We passionately applauded your *Triana*", wrote Breton, "you are on the right path". And Malats enthused, "everyone says the same — *Triana* is adorable". It is not a bravura work, as quite a few pianists think, but one of grace and nuance.

— Enrique Franco

The popularity that certain more easily accessible pieces have always enjoyed (one thinks in particular of *Triana* and *El Corpus en Sevilla*, which immediately became test pieces at the Paris Conservatoire) no doubt played a part in obscuring an overall view of *Iberia* and in marginalising pieces deemed too abstruse or unplayable. Posterity, even today, has all too often responded to only certain aspects of the work — its flashes of brilliance, its larger-than-life vitality, not to say its exoticism — and in doing so has ignored its dreamy or sombre aspects, its tragic and poignant accents. If Falla's music is characterised by its brutal contrasts between light and shade, it is half-

tones that dominate here, hesitation between major and minor tonalities and the subtlety of the most delicately nuanced sentiments. The choice of keys is decisive, since each of them brings its own specific colour and light: one thinks, for example, of the luminous F sharp major of *El Corpus en Sevilla*, a Lisztian use of the key (as in the Hungarian composer's *Bénédiction de Dieu dans la solitude*) that clearly looks forward to the principal tonality of Messiaen's *Vingt regards sur l'enfant Jésus*.

- The original metronome speed is ♩ = 94, possibly a little too fast to portray the character *gracieux et tendre*
- Albeniz's dynamic range is relatively restrained in this piece : *ppp* to *ffff*
- There are many, many pedal (and other signs) and an observation by Debussy can provide a pertinent object lesson: "pedalling cannot be written down. It varies from one instrument to another, from one room, or one hall, to another."
- In line with the other pieces in *Iberia* Albeniz presented *Triana* with a unique key signature, with modifications in this edition
- **30-37** simplification of rhythmic values
- **58-89** this passionate and beautifully crafted central (main) section has been minimally modified to make it easier to read and slightly easier to play. Practically all the notes and signs are there but not necessarily with the original hand patterns; it is rather difficult but pianistically very rewarding.
